

PC Nation Computers and Generals Merchandise

Brgy. 37, Purok 5B, Satellite Market Road, Bitano, Legazpi City

Tel: No. (52) 820-5142, (52) 820-0575, (52) 435-0188

Cell: No. (0922) 858-0078, (0917) 558-0711

LASER ENGRAVER

Equipment Traits:

Strong and stable mechanical structure designs digital controlled motion to be permanent stable and not need adjustment.

Double guide-rail design assures high precision and no abrasion. Minimum of carved character is 1.55mm so that the cutting surface keeps smooth.

With imported gilded lens with silicon base and two-layer focusing system, the equipment produces smaller facula and stronger cutting force, which greatly improves working efficiency and reduces cost.

Exhausting, absorbing and assistant blowing system, of which our company owns the initiation, solves the problem which troubles this trade for years, of exhausting smoke and improves carving and cutting.

Water-cooling system with self-protective function assures stable continuous running

PC Nation Computers and Generals Merchandise

Brgy. 37, Purok 5B, Satellite Market Road, Bitano, Legazpi City

Tel: No. (52) 820-5142, (52) 820-0575, (52) 435-0188

Technical Parameter:

Model Parameter	MT-6090	MT-8012
Unit Price	350,000.00	370,000.00
Laser power	60W/80W	80W
Valid working area	600mm×900mm	1180×760mm
Maximum size of workpiece	1000mm×80mm	1300mm×80mm
Highest carving speed	72000mm/min	72000mm/min
Minimum carved character	Character: 1.5mm/letter:1.0mm	Character: 1.5mm/letter:1.0mm
Maximum cutting thickness	≤15mm PMMA sheet(60W) ≤20mm PMMA sheet(80W)	≤20mm(PMMA sheet)
Repeating orientation precision	±0.01mm	±0.01mm
Equipment overall power consumption	1.2kw	1.2kw
Equipment size	1.4m×1.2m×1m	1.66m×1.18m×1.07m

Application:

Materials: Organic glass, leather, cloth, rubber, plastic, wooden board, paper board and other nonmetal materials.

Field: Organic glass, packing and presswork, rag trade, leather, computer embroider, model, template, craftwork, advertisement and decoration, paper production etc
