Sir:

Our company, PC Nation Computers specializes in ink supplies such as refillable cartridges, continuous ink supply system, compatible cartridges, inks and more. We aim to provide you with the best value for your ink and printing requirements.

Knowing that you are a heavy printer user, we would like to offer you the Bottomless Ink System. The Bottomless Ink System or BIS is a cost efficient alternative for heavy inkjet printing users. It has a bulk ink reservoir which contains ink volume equivalent to approximately 15 conventional cartridges. Thus, it frees users from the downtime of changing cartridges. BIS is also able to dramatically reduce per output cost from Php3.75 to only Php0.20, at least.

We are currently offering a **PRINTER + BIS BUNDLE**. We will provide you with a printer and a BIS system for **FREE**.

Below are the corresponding free printers and their corresponding fixed monthly payment.
